The company VOLF Office Supplies has been operating on the school and office supplies market for more than 30 years, since 1990. Since 1998, the company has been developing its own program of school and office supplies under the private CONCORDE trademark.

CONCORDE stands for consistency and harmony, reciprocal cohesion. In the sphere of business relations and for business partners, CONCORDE means reliability, confidence in the product and distinction from the competition.

For the end user, CONCORDE facilitates work in the office and at school thanks to its attractive design, high self-esteem and prestige.

In addition to the Czech Republic and the Slovak Republic, the CONCORDE trademark is also registered in a number of other European countries, where CONCORDE products are also exported.

The CONCORDE trademark is registered in the Czech Republic and Slovakia as well as in many other European countries where CONCORDE products are also exported. This catalogue becomes the 21st catalogue in the company's history - you see the title pages of all previously released catalogues on the third page of the cover. In addition to the already established and proven product range, as always you can find a number of novelties in it. You can also find all products from the catalogue on our e-shop, which has undergone a significant renovation this year in order to create a more pleasant working environment and further improve its functionality.
